

Polyx™ Wave Baffle

Trademark and 2021 ©

Polyx™ Wave Baffle is a series of undulating baffles inspired by ocean waves. These baffles are slotted into Unistrut channels, for ease of installation. The polyester product is made by a process of tumbling, needle punching, and baking low and high melting point polyester fibres. The high density fibrous network absorbs sounds and reduces reverberation.

Technical Specifications

Material	Polyester Board
Standard Dimension	2400mm x 600mm
Standard Thickness	12mm
Eco-Friendly Test	Oeko-Tex® Standard 100
Fire-Rated Test	EN 13501-1 = Class B s1, d0
Acoustics Test	ISO 354 = NRC 0.41
