

Polyx™ Horizon 20L

Trademark and 2024 ©

Polyx™ Horizon panels feature a series of horizontal grooves that run across the surface, creating a sleek and continuous linear effect. The horizontal orientation of the grooves emphasises the width of the space, adding a sense of expansiveness. Polyx™ Polyester Board is made by a process of tumbling, needle punching, and baking low and high melting point polyester fibres. The high density fibrous network absorbs sounds and reduces reverberation.

Technical Specifications

Material	Polyester Board
Standard Dimension	1200mmW x 2400mmH
Standard Thickness	9mm, 12mm, 18mm, 24mm
Bevel Dimensions	20mmW x 10mmH
Bevel Angle	45 Degrees
Chamfered Edge	Top & Bottom
Eco-Friendly Test	EN 13986 = E1
Fire-Rated Test	EN 13501-1 = Class B s1, d0
Acoustic Test	ISO 354 = NRC 0.65 with 12mm Polyx™ and 100mm Air Gap
